***Augmented Reality Experience
for the Grand Egyptian Museum***

Introduction

The Grand Egyptian Museum is one of the largest archaeological museums in the world. It represents the greatness of ancient Egyptian civilization and contains thousands of historical artifacts

However, the traditional way of displaying artifacts may not be engaging enough for all visitors

Problem Statement

Visitors can only look at statues without interacting with them. There is no immersive or interactive experience. it is difficult for visitors to imagine the historical context of the artifacts.

Solution Idea

I developed an Augmented Reality application that allows users to scan specific cards and instantly view 3D models of statues

This creates an interactive and engaging learning experience

How the application works

The user opens the application

The camera is pointed at a specific card or marker

The system detects the image

A 3D model appears on the screen in real time

The project includes famous historical figures such as:

- Ramses II
- Tutankhamun
- Nefertiti
- Akhenaton
- Cleopatra
- High Priest
- Khafre
- Sphinx

This makes him one of the longest-reigning rulers in history.

.One of the MOST FAMOUS BATTLES HE FOUGHT WAS THE BATTLE OF KADESH

His statue, made of diorite stone, is one of the most famous and well-preserved statues :
in ancient Egypt

Tutankhamun

TUTANKHAMUN WAS AN ANCIENT EGYPTIAN PHARAOH WHO RULED AROUND 1332–1323 BCE

HE BECAME KING AT A VERY YOUNG AGE, AROUND 8 OR 9 YEARS OLD.

TUTANKHAMUN'S TOMB WAS ALMOST COMPLETELY INTACT, WHICH HELPED HISTORIANS LEARN A LOT ABOUT ANCIENT EGYPT.

Technology Used :

- 1- Unity Engine was used to build the application.
- 2- Augmented Reality technology was used to display 3D models.
- 3- Image tracking was used to detect the image target of statue
- 4- 3D models were integrated into the application.
- 5- A video about the life of the statue is shown.

CONCLUSION

**THIS PROJECT AIMS TO COMBINE TECHNOLOGY
WITH HISTORY TO CREATE A MORE ENGAGING
AND INTERACTIVE MUSEUM EXPERIENCE.**
